Decision: **Approved**

Miscellaneous items

C/2021/0473 Milton Gate Stables:

Background: A High Court Injunction was awarded on behalf of the Council in mid-March after a two day trial. Notices were served on the land and were also served on the property entrance along Milton Gate. The injunction will be posted online by the High Court but the summary is that they have to remove the access by 18th September 2023, they are required to remove the hardstanding and gate access and by 17 April 2024 to have reinstated the grass verge.

Two people have since been given prison sentences for ignoring planning enforcement actions and a High Court order.

The case was brought to court by Wealden District Council after an access point onto the A27 – which gave no visibility in either direction and was a major highway safety issue – was created from the site in Wilmington without planning permission.
